2.1P: In Person Check-in 1 – Answer Sheet

1. Briefly describe your prior experience with programming.

   Learned Qbasic in school,
   Learned some basics of C/C++ in high school
   Doing DSA in Java currently.

2. Based on what you have seen so far, what do you think will be most challenging about COS20007?

   I think the task submission part will be the most challenging as deadlines are too short. There are too many submissions in short period of time.

3. What can you do to prepare yourself for that challenge (resources you can use, approach to studying etc.)?

   Complete the task and study without sleeping. Youtube can be a good resource.

4. Is there anything you think the teaching staff should know to best help you this semester?

I appreciate clear communication and timely feedback.
